MEDI-CAL PROGRAM

1995

This report presents statistical data on Medi-Cal program services, expenditures, and eligibles for Calendar Year 1995.

County Welfare Departments determine eligibility for all Medi-Cal eligibles with the exception of Supplemental Security Income/State Supplementary Payment (SSI/SSP) eligibles, who have their eligibility determined by the Social Security Administration.

Persons eligible for Medi-Cal are reported to the Medi-Cal Eligibility Data System (MEDS) by the County Welfare Departments, the State, and the Social Security Administration.

Payment data used in this report are based on the concept of month of payment rather than month of service. The difference can be best explained by pointing out that payments made in a given month can be for services rendered in one or more previous months.

It should be noted that expenditures in this report are based on paid claims computer tapes prepared by various entities that process Medi-Cal claims and do not represent official budget figures or accounting records. Audit recovery monies, Medicare premiums, refunds, and administrative expenses are not included in this report except when specifically noted.

This report does not account for drug rebates from contracts with manufacturers nor Disproportionate Share Hospital Payments.

NOTE ON DATA PRESENTATION

Generally, the data in this report include the Medi-Cal Fee-For-Service Program, Medi-Cal beneficiaries in State Hospitals, and Medi-Cal beneficiaries covered under a capitation contract with Delta Dental Service.

Data on Capitated Health Systems are excluded from a number of tables in this report. Capitated Health Systems receive a monthly capitation payment to provide services to enrollees, so cost figures for specific services are not available.

Beginning with this Calendar Year 1995 Report, Capitated Health Systems data are included in Tables 1, 2, 15, 16, 17, 31, and 32 only.

The Fee-For-Service data for Primary Care Case Management Plan beneficiaries are included in this report.

MEDI-CAL PROGRAM STATISTICAL SUMMARY

CALENDAR YEAR 1995

In 1995, a total of 5.42 million persons per month were eligible for Medi-Cal. This includes Fee-For-Service, County Organized Health Systems, and Prepaid Health Plans.

The 604,213 persons enrolled in Prepaid Health Plans (PHPs) each month reflected an 18.9 percent increase from 1994. PHP capitation payments totaled \$705.7 million which was an increase of \$105.9 million from 1994.

A total of \$303.6 million in prepaid capitations were received by county organized health systems to provide non-dental medical services for an average of 183,884 eligibles per month during 1995.

There were 2.32 million persons who used Medi-Cal benefits each month in 1995. This includes Fee-For-Service Only benefits. Provider payments for those users totaled \$10.12 billion in 1995.

The average cost per user was \$364.41 per month and the average cost per eligible was \$182.09 per month in 1995.

Public Assistance eligibles, excluding Capitated Health System eligibles, averaged 3.37 million persons per month in 1995. This aid group accounted for 73 percent of the Fee-For-Service eligible population, 73 percent of the users, and 56 percent of total provider payments (\$5.63 billion).

Medically Needy eligibles averaged 543,081 persons per month in 1995, a decrease of 2.8 percent from 1994. Medically Needy accounted for 12 percent of Fee-For-Service eligibles, 14 percent of users, and 30 percent of total provider payments (\$3.08 billion).

Medically Indigent eligibles averaged 249,073 persons per month in 1995, a 1.9 percent decrease from 1994. Medically Indigent accounted for 5 percent of Fee-For-Service eligibles, 5 percent of users, and 4 percent of total provider payments (\$371.9 million).

County and community hospital services accounted for 33.2 percent of 1995 provider payments. County hospitals received \$952.0 million. Community hospitals received \$2.41 billion.

Medi-Cal purchased Medicare Part A and Part B Supplemental Medical Insurance for an average of 728,120 Aged and Disabled eligibles each month in 1995. Monthly premiums averaged \$35.7 million.

SECTION 1

HIGHLIGHTS OF 1995 PROGRAM CHANGES

The following discusses the major changes of the Medi-Cal program during Calendar Year 1995.

Mental Health Managed Care Transfer, January 1, 1995

Effective January 1, 1995, the responsibility for administration and payment of inpatient acute psychiatric services has been transferred to the Short/Doyle Local Mental Health program within Department of Mental Health. Funds for the second half of FY 1994-95 were transferred from the Medi-Cal Local Assistance Item to the Department of Mental Health. General Funds for FY 1995-96 will be incorporated directly into the Department of Mental Health budget, and an interagency agreement with the Medi-Cal program provides the matching federal funds.

Effective April 1, 1995, inpatient and outpatient psychiatric services were transferred for San Mateo County Organized Health System participants, and fee-for-service inpatient acute psychiatric services provided in San Mateo County.

Fifty Cent Reduction in Pharmacy Reimbursement, January 1, 1995

Assembly Bill 2377 (Chapter 147, Statutes of 1994) reduces all prescription claims reimbursed through the Medi-Cal outpatient fee-for-service program by fifty cents (\$0.50) effective January 1, 1995 (14105.336).

Change to Diagnoses for AIDS Waiver Program, January 6, 1995

Changes made in the 1995 International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM), alter the diagnoses for Human Immunodeficiency Virus (HIV) infection. In the 1994 ICD-9-CM, the diagnoses included all component subdivisions of 042 (Human immunodeficiency virus infection with specified conditions), 043 (Human immunodeficiency virus infection causing other specified conditions), and 044 (Other human immunodeficiency virus infection). The 1995 ICD-9-CM has combined all of the aforementioned codes, making the only valid diagnosis for human immunodeficiency virus (HIV) infection: 042 Human immunodeficiency virus (HIV) disease.

Waivers of Medi-Cal Probate Claims, February 1995

Effective in May 1994, the Medi-Cal program implemented new criteria and procedures to grant hardship waivers of probate claims. These changes were mandated by Welfare and Institutions Code 14009.5 as amended by Senate Bill 177 (Chapter 1201, Statutes of 1989). These regulations were repealed by the Office of Administrative Law in September 1994, but new emergency regulations were implemented in February 1995. Subsequent to this, regulations were adopted effective April 27, 1995. Due to public comments and revisions proposed by legal staff, the Certificate of Compliance was withdrawn. New regulations were drafted, approved, and adopted, effective March 19, 1996.

Six-Month Exemption for New Drugs, March 1995

OBRA 1993 eliminated the federal requirement that all drugs approved by the Food & Drug Administration (FDA) be a Medicaid benefit, without prior authorization, for six months from the date of FDA approval. State regulations became effective March 1995 eliminating this requirement from the Medi-Cal program.

Dental Root Canal Authorizations, May 1995

New regulation package R-7-95E requires prior authorization along with pre- and post-operative x-rays for anterior root canal treatment under the Dental-Cal program. These new regulations became effective on May 1, 1995.

Medi-Cal Targeted Case Management (TCM) Program, June 1995

The Medi-Cal program has implemented a claims processing system for Targeted Case Management (TCM) services whereby local governments can claim Federal Financial Participation for the cost of TCM services provided to specific Medi-Cal beneficiaries. Counties and Chartered Cities will provide data, in a prescribed format, which will include the date of service, beneficiary identification number, and appropriate category or service code. The Department of Health Services (DHS) will match the information against the Medi-Cal Eligibility Data System (MEDS) to verify eligibility with the date of service. DHS Accounting will prepare a claims schedule from summary reports, and route the schedule to the State Controller's Office for payment. A yearly payment cap for each county or city will be established. Once the cap is reached, claims will continue to be processed but without payment.

Electronic Funds Transfer, July 1995

In early July 1995, the Department of Health Services implemented Electronic Funds Transfer (EFT). This new system allows providers to receive their payments electronically to their banks as opposed to the mail. In order to participate a provider must be in good standing and must sign-up.

State Hospital Releases, July 1995

State Developmental Centers are in the process of being downsized and in some cases closed and are releasing clients into community settings. Clients being placed into community settings receive noninstitutionalized Medi-Cal services on a fee-for-service basis rather than through the Developmental Centers. Regional Centers for the Developmental Disabled assist the Department of Developmental Services and the Department of Health Services in ensuring clients retain access to needed medical services.

Drug Use Review, August 1995

Starting August 1995, the Medi-Cal fee-for-service outpatient drug program began a phase-in implementation of on-line prospective drug use review (DUR). Pharmacists receive on-line messages that indicate one or more possible therapeutic problems at the time of pharmacy claim adjudication.

Change to Aid Code 82, August 1, 1995

Aid Code 82 covers Medically Indigent persons under the age of 21 years who meet the eligibility requirements of Medically Indigent. As of August 1, 1995, Aid Code 82 will also cover persons until age 22 who were in an institution for mental disease before age 21. Persons may be continued in this Aid Code until age 22 if they have filed for a State hearing.

Investigational New AIDS Drugs, August 1995

Welfare and Institutions Code Section 14137.6 requires the Medi-Cal program to cover, as a benefit, any Treatment Investigational New Drug (TIND) approved by the Food and Drug Administration (FDA) for the treatment of AIDS. The FDA approved a Recombinant Human Growth Hormone (RHGH) for AIDS patients as a means to maintain body weight. There are no existing drugs which treat weight loss; therefore, there are no drugs to be replaced by RHGH treatment.

Vaccine Administration Fee Increase, August 1, 1995

Effective August 1, 1995, the administration fee component for vaccinations was increased from \$3.94 to \$7.50.

Emergency Drug Authorizations, September 1995

The Department changed the emergency authorization policy of prescription drugs when Medi-Cal pharmacy consultants are unavailable. The new regulations allow the dispensing pharmacist to certify that the condition is an emergency instead of requiring a written certification by the prescribing physician.

New County Health System: Orange County (CalOPTIMA), October 1, 1995

A new County Health Initiative was implemented for Orange County Medi-Cal recipients. The Orange Prevention and Treatment Integrated Medical Assistance Plan (CalOPTIMA) is a Medi-Cal county-wide program administered by the Orange County CalOPTIMA Board of Directors.

The program will have a three-part phase-in process by aid code groupings beginning October 1, 1995. CalOPTIMA serves all Medi-Cal-eligible and Medicare/Medi-Cal-eligible recipients who have ID numbers with County Code 30 (Orange County) and one of the following aid codes.

Transitional Medi-Cal - Married, October 1995

Based on AB836 and AB1371 and a federal waiver, the Department of Health Services and the Department of Social Services have established a program to provide Transitional Child care and Transitional Medi-Cal (TMC) to families discontinued from AFDC due to marriage or the reuniting of separated spouses. This program is being called Wedfare.

Implementation of Aid Codes 0A, 3G, 3H, 3P, and 3R - Refugee Cash Assistance and Aid to Families with Dependent Children (AFDC) Recipients Exempt from Grant Cuts, November 1, 1995

The Department of Health Services implemented five new Aid Codes (0A, 3G, 3H, 3P, and 3R) to identify and track Refugee Cash Assistance and Aid to Families with Dependent Children (AFDC) recipients who will be exempt from grant cuts being imposed upon the general AFDC population pursuant to the Assistance Payments Demonstration Project/California Work Pays Demonstration Project. The five new Aid Codes will be assigned to certain recipients previously covered in Aid Codes 01, 30, 32, 33, and 35.

Medicare Crossover Payments, December 1995

State law and regulations require that when a billing claim involves coverage by both Medicare and Medicaid, the maximum reimbursement by Medi-Cal is the Medi-Cal rate established for similar services less the amount Medicare pays. The Department of Health Services has not been paying for Medicare deductibles and co-insurances for hospital inpatient care for services rendered on and after May 1, 1994.

The U.S. District Court for the Central District of California has ruled in the case of Beverly v. Belsh_ that the State law does not apply to any person that can be considered a Qualified Medicare Beneficiary (QMB). The Department of Health Services has determined that all SSI/SSP eligibles and all Medi-Cal Only eligibles with an Aid Code or Subcode of 80 must be considered QMBs effective December 11, 1995.

Managed Care Expansion - Two-Plan Model

Implementation of the two-plan model began January 1996, when the first of twelve counties (Alameda) implemented their county initiative. San Joaquin implemented their county Initiative February 1996. The bulk of the remaining 10 counties (Contra Costa, Fresno, Kern, Los Angeles, Riverside, San Bernardino, San Francisco, Santa Clara, Stanislaus, and Tulare) is expected to implement in the Budget Year. The monthly enrollees represent the shift from Fee-For-Service to Managed Care for Public Assistance - Families, Medically Needy - Families, and Medically Indigent Children only.

Medi-Cal funding for some CCS Medical Therapy Units

California Children Services (CCS) Medical Therapy Units will begin billing direct to Medi-Cal for physical and occupational therapy services provided to Medi-Cal eligible children. These services will continue to be provided in CCS Medical Therapy Units, however, those units which are certified as Medi-Cal providers may bill for these services to the Medi-Cal program. Billing of Medi-Cal was implemented July 1, 1994 with retroactive billing to September 1, 1993.

NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

NOTE

This report is for informational purposes only and does not purport to be, or attempt to give, a legal interpretation of rules, regulations, and laws pertaining to the Medi-Cal Program. Questions and comments may be directed to Mary Cline (Phyllis Barnhouse has since retired), Medical Care Statistics Section, (916) 657-2794.

MEDI-CAL ELIGIBLES AND USERS

MEDI-CAL ELIGIBLES, ALL PROGRAMS - TABLE 1

You will notice a change in the format of this table. You will see the Total Average Monthly Medi-Cal eligibles, then a separate count of eligibles for County Organized Health Systems (COHS) and Prepaid Health Plans (PHPs), followed by Fee-For-Service (FFS) by Program and Aid Category.

Total Medi-Cal eligibles (including Fee-For-Service, County Organized Health Systems, and Prepaid Health Plans) averaged 5.42 million persons per month in 1995.

In Calendar Year 1995:

Capitated Health System eligibles (COHS and PHPs) are not included in the FFS breakdown.

Beginning January 1995, COHS data are no longer included in the FFS data; therefore, for this year, you will not see a comparison of the current year to the prior year.

Total Medi-Cal FFS eligibles averaged 4.6 million persons per month.

Public Assistance (PA) eligibles averaged 3.37 million persons per month (or 72.8 percent of all FFS eligibles).

Total Medically Needy (MN) eligibles averaged 543,081 persons monthly (or 11.7 percent of all FFS eligibles).

Total Medically Indigent (MI) eligibles averaged 249,073 persons monthly (or 5.4 percent of all FFS eligibles).

The Immigration Reform and Control Act (IRCA) Aliens program expired December 31, 1994. IRCA is shown for 1995 because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Aliens program averaged 282,743 persons monthly (or 6.1 percent of all FFS eligibles).

The Refugee/Entrant programs averaged 5,647 persons monthly (or 0.1 percent of all FFS eligibles).

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty, and the 200 Percent Poverty programs averaged 174,015 persons monthly (or 3.8 percent of all FFS eligibles).

The remaining programs (60-Day Postpartum, Dialysis, Total Parenteral Nutrition, Qualified Medicare Beneficiary, and Medi-Cal Tuberculosis) averaged 4,404 persons per month (or 0.1 percent of all FFS eligibles).

Data for the Presumptive Eligibility for Pregnant Women program are not available.

Enrollment of Medi-Cal eligibles in Capitated Health Systems increased 25.9 percent in 1995, to a monthly average of 788,097 persons. For additional information, See Section 5, Medi-Cal Capitated Health Systems, page 43.

TOTAL ANNUAL PAYMENTS - TABLE 2

This is a companion to Table 1, showing payments by type of program. This replaces the former Table 2, which showed Medi-Cal eligibles as a percent of county population. For those of you needing that information, please see Table 28. In this table, you will see Total Annual Medi-Cal payments, then a separate count of payments for County Organized Health Systems (COHS) and Prepaid Health Plans (PHPs), followed by Fee-For-Service (FFS) by Program and Aid Category.

Total Annual Medi-Cal payments (including Fee-For-Service, County Organized Health Systems, and Prepaid Health Plans) averaged \$11.13 billion in 1995.

In Calendar Year 1995:

Capitated Health System payments (COHS and PHPs) are not included in the FFS breakdown.

Beginning January 1995, COHS data are no longer included in the FFS data; therefore, for this year, you will not see a comparison of the current year to the prior year.

Total Annual Medi-Cal FFS payments were \$10.12 billion.

Payments for persons in the Public Assistance group ran \$5.63 billion (or 55.6 percent of all FFS payments).

Over \$3 billion were paid for services provided to the Medically Needy (or 30.4 percent of all FFS payments).

Total Medically Indigent payments were \$372 million (or 3.7 percent of all FFS payments).

The Immigration Reform and Control Act (IRCA) Aliens program expired December 31, 1994. IRCA is shown for 1995 because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Aliens program payments were \$630 million.

Payments for the Refugee/Entrant programs were \$23 million.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty, and the 200 Percent Poverty programs accounted for \$280.3 million (or 2.8 percent of the FFS payments).

Total payments for the remaining groups (60-Day Postpartum, Dialysis, Total Parenteral Nutrition, Qualified Medicare Beneficiary, and Medi-Cal Tuberculosis) accounted for \$110.2 million (or 1.1 percent of all FFS payments).

Prepaid Health Plan capitation payments accounted for \$706 million.

The County Organized Health System capitation payments accounted for \$304 million.

MONTHLY MEDI-CAL ELIGIBLES - TABLE 3

An average of 4,633,165 persons were eligible each month for Medi-Cal fee-for-service benefits during 1995. Average monthly eligibles in the first half of the year ran about 150,400 or 3.3 percent higher than in the last half.

The Public Assistance (PA) program accounted for 73 percent of the total annual average eligibles. The PA eligibles averaged 106,232 more persons in the first half of the year than in the last half.

The Medically Needy (MN) program accounted for 12 percent of the total annual average eligibles. The average MN eligibles ran 34,081 persons higher in the first half of the year than in the last half.

The Medically Indigent (MI) program accounted for 5 percent of the total annual average eligibles. Eligible counts in the MI program peaked in March. The average MI eligible count was higher in the first half of the year than in the last half.

The Aliens and Refugee/Entrant programs combined accounted for 6 percent of the eligible population.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs combined accounted for 4 percent of the eligible population.

The 60-Day Postpartum program accounted for less than 0.1 percent of the eligible population.

The Qualified Medicare Beneficiary program accounted for less than 0.1 percent of the eligible population.

Data for the Presumptive Eligibility for Pregnant Women program are not available.

The Medi-Cal Tuberculosis program accounted for just a fraction of the eligible population (0.008 percent). The Dialysis and Total Parenteral Nutrition programs combined accounted for just a fraction of the eligible population (0.001 percent).

MONTHLY MEDI-CAL USERS - TABLE 4

An average of 2,315,056 persons received Medi-Cal program benefits each month in 1995. Monthly users averaged 159,749 more persons in the first half of the year than in the last half.

A monthly utilization rate can be computed from Tables 3 and 4. The utilization rate for the Total Fee-For-Service Program is 50 percent of eligibles receiving service each month.

The Public Assistance (PA) group, which accounted for 73 percent of the total annual average Medi-Cal users, had a utilization rate of 50 percent. There were an average of 122,616 more PA users in the first half of the year.

The Medically Needy (MN) group, which accounted for 14 percent of the total annual average users, had a utilization rate of 60 percent. There were 8.1 percent more MN users in the first half of the year.

The Medically Indigent (MI) group, which accounted for 5 percent of the total annual average users, had a utilization rate of 47 percent. These users averaged 10 percent more MI users in the first half of the year.

The Aliens and Refugee/Entrant groups accounted for 4 percent of the total annual average users. These users averaged 8.3 percent more in the first half of the year.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and the 200 Percent Poverty groups combined accounted for 3 percent of the total annual average users.

The 60-Day Postpartum, Qualified Medicare Beneficiary, Presumptive Eligibility for Pregnant Women, Medi-Cal Tuberculosis Program, and All Other groups combined accounted for 1 percent of the total annual users.

MEDI-CAL UTILIZATION - TABLE 5

Comparing persons eligible during a period with claims paid (rather than services provided) in that period gives rather crude comparisons, but the more correct comparison would not generally result in significantly different utilization rates.

In 1995, an average of 2.32 million persons per month used Medi-Cal benefits. This was 10,365 fewer monthly users than in the prior year.

The total number of users per 1,000 eligibles increased 5.0 percent, from 476 in 1994 to 500 in 1995. The total number of users include the Presumptive Eligibility for Pregnant Women program, however, eligibles are not available. If these users are excluded, the overall utilization rate calculates to be 496 in 1995.

During 1995, the Public Assistance Families, Medically Needy Families, and Medically Indigent Children categories all have relatively low utilization rates (423, 490, and 444 users per 1,000 eligibles respectively). These are groups with utilization rates below 50 percent.

Aged, Blind, and Disabled eligibles have the higher utilization rates in the Public Assistance and Medically Needy Programs, in 1995.

Calendar Year 1995 data do not include users of health care services provided by County Organized Health Systems (COHS) or Prepaid Health Plans (PHPs).

SECTION 3
MEDI-CAL EXPENDITURES

TOTAL PROVIDER PAYMENTS
BY PROGRAM AND AID CATEGORY - TABLE 6

In 1995, providers received \$10.12 billion, a 1.0 percent decrease from 1994. The amount of decrease was over \$102 million.

Public Assistance, the largest group in terms of total expenditures, received \$5.63 billion in services during 1995, down 1.8 percent from 1994.

The Medically Needy group received services totaling \$3.08 billion in 1995, a decrease of 2.2 percent from 1994.

Medically Indigents received \$371.9 million in services, up 2.0 percent from 1994.

The IRCA Aliens, OBRA Aliens, and Refugee/Entrant programs accounted for \$6.1 million, \$629.8 million, and \$23.2 million, respectively, in 1995. These programs accounted for 6.5 percent of the total expenditures.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and the 200 Percent Poverty programs accounted for \$5.5 million, \$39.1 million, \$232.3 million, and \$3.4 million, respectively, in 1995. These programs accounted for 2.8 percent of the total expenditures.

The 60-Day Postpartum program accounted for \$1.9 million in 1995, an increase of 11.5 percent from 1994.

The Dialysis, Total Parenteral Nutrition, Qualified Medicare Beneficiary, Presumptive Eligibility for Pregnant Women and the Medi-Cal Tuberculosis programs accounted for \$1.0 million, \$329 thousand, \$1.4 million, \$25.8 million, and \$74 thousand, respectively, in 1995.

These programs accounted for a very small percentage of total expenditures (0.28 percent).

PAYMENT PER ELIGIBLE
BY PROGRAM AND AID CATEGORY - TABLE 7

The average monthly payment per eligible was \$182.09 in 1995. This represents an increase of \$7.57 per eligible or 4.3 percent over the prior year. Payments include the Presumptive Eligibility for Pregnant Women program, however, eligibles are not available. If these payments are excluded, the overall cost per eligible calculates to be \$181.62.

Relative cost increases exceeding the overall 4.3 percent were experienced by the Public Assistance Blind (up 8.2 percent); Medically Needy Blind (up 6.7 percent); Medically Indigent Adults (up 10.5 percent); Refugee/Entrant (up 21.9 percent); 200 Percent Poverty Infants (up 87.7 percent); 60-Day Postpartum (up 13.4 percent); Dialysis (up 224.6 percent); and the Total Parenteral Nutrition (up 81.4 percent).

Public Assistance Families, which is a major expenditure group, had a relatively small increase in cost per eligible, up 4.0 percent to \$76.15 per month in 1995.

Of the other major aid groups in terms of expenditures (see Table 6), the Public Assistance Disabled showed an increase in cost per eligible, up 0.6 percent to \$339.70 in 1995.

Calendar Year 1995 data do not include payments for health care services handled by County Organized Health Systems (COHS) or Prepaid Health Plans (PHPs).

PAYMENT PER USER
BY PROGRAM AND AID CATEGORY - TABLE 8

During 1995, the Medi-Cal program spent \$364.41 per month per user of service. This was \$2.04 or 0.6 percent less than in 1994.

The lowest monthly cost group was the Medi-Cal Tuberculosis Program beneficiary at \$96.84 per user, followed by the 133 Percent Poverty beneficiary at \$111.21 per user.

Public Assistance Aged, Blind, and Disabled Medi-Cal payments are relatively low because practically all this group has concurrent Medicare coverage which pays a substantial portion of the medical bill.

The cost for Public Assistance (PA) Families was \$179.90 per user per month, while for Medically Needy (MN) Families it was \$282.03. A larger proportion of MN Families utilize hospital inpatient services resulting in higher cost rates.

Costs per user in the MN Aged, Blind, and Disabled groups tend to be rather large. This is because a large number of persons in these groups are in a long-term care facility. The cost per Medically Needy user runs almost three times that of Public Assistance users.

Cost per user for Medically Indigent Adults showed an increase of 2.7 percent from the previous year. The Medically Indigent Children was down 3.3 percent in cost per user from 1994.

The OBRA Aliens, 100 Percent Poverty, and the Presumptive Eligibility for Pregnant Women programs all showed decreases in the cost per user, while the cost per user for the Refugee/Entrant, 133 Percent Poverty, 185 Percent Poverty, 200 Percent Poverty, 60-Day Postpartum, Dialysis, Total Parenteral Nutrition, Qualified Medicare Beneficiary, and the Medi-Cal Tuberculosis programs all showed an increase.

COST PER SERVICE - TABLE 9

The most frequently used physician service is, of course, the outpatient visit. In 1995, the Medi-Cal average cost per physician outpatient visit was \$23.29. Outpatient visits include office, emergency room, home, and other outpatient situations.

Physicians' hospital inpatient visits averaged \$32.46 per visit. Visits for long-term care inpatients averaged \$26.26 per visit.

After outpatient visits, the second largest expenditure category of physician services is for inpatient hospital surgery. This service has the highest cost rate, \$586.66 per service in 1995.

The average cost per drug prescription was \$24.84 in 1995, an increase of 6.3 percent from the prior year.

The highest cost per service in the Medi-Cal program is, of course, for hospital inpatient care. The average cost per hospital inpatient day in 1995 was \$1,016.11 for Public Assistance Families and Medically Needy Families. Those groups accounted for 35.4 percent of total hospital inpatient expenditures in 1995 and were used in Table 9 so that most Medicare/Medi-Cal crossover data could be excluded. Costs include ancillaries as well as accommodations.

In 1995, the average cost per day of care was \$79.43 for nursing facilities and \$107.87 for intermediate care facilities-developmentally disabled.

PAYMENTS BY PROVIDER TYPE - TABLE 10

In 1995, provider payments averaged \$843.6 million per month, down \$8.5 million from the prior year's average.

Community Hospitals received the largest share of the Medi-Cal provider payments. Monthly expenditures for these hospital services decreased 9.3 percent over the prior year to \$201.1 million per month.

Nursing Facilities was the second highest paid provider group. Their payments increased 3.2 percent from 1994 to \$166.2 million per month.

Physicians received \$86.1 million per month in 1995, down 0.7 percent from the prior year.

Payments to County Hospitals averaged \$79.3 million per month during 1995, down 3.4 percent from the prior year.

The major reason for the large increase in cost of dental services is due to higher rates paid for dental procedures as a result of the Court Order under the Clark vs. Belsh_ lawsuit.

All of the provider types showed an increase in 1995, except Physician, Optometrist, Chiropractor, County Hospital, Community Hospital, and State Hospital, which showed decreases of 0.7, 3.4, 14.0, 3.4, 9.3, and 7.7 percent respectively.

COST PER ELIGIBLE BY PROVIDER TYPE - TABLE 11

The average monthly cost per eligible was \$182.09 in 1995.

Community Hospitals was the largest expenditure category and had the highest cost per eligible per month at \$43.41, down 4.4 percent from 1994.

Cost per eligible in the second largest expenditure category, Nursing Facilities, was \$35.86, an increase of 8.8 percent from 1994.

Pharmacies was the third largest expenditure category and its monthly cost per eligible of \$23.36 reflected an increase of 6.4 percent from 1994.

Payments to Physicians cost \$18.58 per eligible per month, a 4.6 percent increase from 1994.

County Hospitals was the fourth largest expenditure category and its monthly cost per eligible of \$17.12 reflected an increase of 1.8 percent from 1994.

The major reason for the large increase in cost of dental services is due to higher rates paid for dental procedures as a result of the Court Order under the Clark vs. Belshe lawsuit.

COST PER USER BY PROVIDER TYPE - TABLE 12

In 1995, the average monthly cost per recipient was \$364.41.

Users of State Hospital services and County and Community Hospital Inpatient services were the most costly - of those three provider types, State Hospital services showed the highest cost per user at \$8,444.05 per month, down 2.6 percent from 1994; County Hospital Inpatient services showed the cost per user at \$5,776.28, up 8.4 percent from 1994; and Community Hospital Inpatient services showed the lowest cost per user at \$4,188.60, up 12.2 percent from 1994.

Recipients of Podiatrist services showed the largest cost increase from a year ago, up 40.7 percent per recipient.

The major reason for the increase in the cost of dental services is due to higher rates paid for dental procedures as a result of the Court Order under the Clark vs. Belshe lawsuit.

TOTAL MEDI-CAL PROGRAM EXPENDITURES - TABLE 13

Table 13 is the only table showing all types of Medi-Cal program expenditures. The following figures reflect actual budget item expenditures and, as such, are reported here by fiscal (budget) year rather than by calendar year.

Total Medi-Cal expenditures were \$16.47 billion for Fiscal Year (FY) 1994-95, an increase of 4.5 percent from FY 1993-94.

The \$9.69 billion in direct fee-for-service provider payments was an increase of 0.4 percent. These expenditures accounted for 59 percent of the total expenditures in FY 1994-95 and 61 percent in the FY 1993-94.

Delta Dental (DD) is an at-risk fiscal intermediary providing authorization and payment for virtually all types of Medi-Cal dental services rendered. DD covers all Medi-Cal eligibles except those enrolled in PHPs providing dental care. In FY 1994-95, the approximate number of Medi-Cal eligibles covered by DD was 4.56 million persons per month. Capitation payments totaled \$714.7 million, up 26.3 percent from FY 1993-94.

Prepaid Health Plan (PHP) capitations increased 30.2 percent to \$642.4 million in FY 1994-95.

There were three County Organized Health Systems (COHS) in effect during FY 1993-94. Santa Barbara Health Initiative was effective September 1, 1983, Health Plan of San Mateo was effective December 1, 1987, and Solano Partnership HealthPlan was effective May 1, 1994. Payments to COHS totaled \$241.0 million.

Expenditures for Early Periodic Screening Services decreased 4.2 percent to \$99.5 million in FY 1993-94. The program provides screening, diagnostic, and treatment services for all Medi-Cal eligibles under age 21.

The Short-Doyle/Medi-Cal program provides community mental health services to Medi-Cal program eligibles. The \$247.9 million expenditure in FY 1994-95 reflects a decrease of 11.2 percent from the prior fiscal year.

Buy-In is the purchase of Medicare Part A and Part B Medical Insurance Coverage by the Medi-Cal program for those eligibles who are entitled to the coverage. Expenditures for Medicare Part A and Part B Buy-In ran \$559.6 million in FY 1994-95.

Administration costs include various State Departmental expenditures, payments for claims processing operations, and county administrative expenses. In FY 1994-95, these expenditures increased 27.5 percent from the prior fiscal year. Administration costs accounted for 4.8 percent of total expenditures in FY 1994-95 and 4.0 percent of total expenditures in 1993-94.

MEDI-CAL PROVIDER PARTICIPATION

SECTION 4

MEDI-CAL PROVIDER PARTICIPATION

Table 14 shows the total number of selected types of providers and their distribution by amount paid. The figures include out-of-state providers. Physicians include group practices which are counted as one provider. This understates the physician count, but it is not known how many physicians are practicing in a group.

A county distribution of selected types of providers is given in Table 26 and Table 27. The physician and hospital counts of Table 26 differ from Table 14 due to a different billing period used in Table 26.

The majority of providers are in the \$1-\$599, \$600-\$9,999, and \$10,000-\$49,999 payment intervals. However, for Pharmacies, there were more providers in the \$100,000-\$999,999 payment interval.

The large number of total general hospitals and the large number who received less than \$10,000 each reflects the fact that out-of-state hospital billings are included in the data. Table 26 shows 686 hospitals received payment from Medi-Cal for either inpatient services, outpatient services, or both.

For intermediate care facilities for the developmentally disabled (DD), the largest paid amount interval was \$100,000-\$999,999.

For nursing facilities, the largest paid amount interval was \$1,000,000 and Over.

SECTION 5

MEDI-CAL CAPITATED HEALTH SYSTEMS

PREPAID HEALTH PLAN ENROLLMENT - TABLE 15

A Prepaid Health Plan is an organized system which provides comprehensive health care services to an enrolled population.

Under Section 14200 et seq., of the Welfare and Institutions (W&I) Code, the Medi-Cal Program provides beneficiaries an opportunity to enroll in a managed care alternative to the Medi-Cal Fee-For-Service (FFS) system. Under this authority, the Department of Health Services contracts with Prepaid Health Plans (PHPs) and pilot projects to provide comprehensive, managed care in specified areas of the State on a prepaid, at-risk basis. Under Federal Law, California's PHPs are the equivalent of Health Maintenance Organizations (HMOs).

PHPs are reimbursed at a per-person per-month FFS equivalent Medi-Cal cost.

Prepaid Health Plan eligibles and payments shown in this report are obtained from the Worksheet for Capitation Payment (Initial Capitation Only, excluding supplemental adjustments, such as, any eligible on hold until certain issues have been resolved; AIDs Capitations; and new eligibles with enrollment beginning after the initial capitation).

An annual average of 604,213 Medi-Cal eligibles were enrolled in Prepaid Health Plans (PHPs) each month of 1995. The enrollment increased 18.9 percent from the average of 507,957 persons enrolled each month in 1994.

Most enrollees (90 percent) were persons in families with dependent children.

Los Angeles County showed a monthly average of 341,092 PHP enrollees in 1995, which accounted for 56 percent of the total enrollees.

Sacramento County was second in PHP enrollment, with an average of 90,802 enrollees per month.

A Geographic Managed Care (GMC) pilot project began in Sacramento County on April 1, 1994. Medi-Cal recipients in Sacramento County who receive assistance through Aid to Families with Dependent Children (AFDC) and Medically Indigent Children are required to enroll in a managed care plan. Aged, blind, and disabled recipients who are eligible for Medi-Cal under the Supplemental Security Income (SSI) program may voluntarily enroll in one of the managed care plans or continue receiving health care through the Medi-Cal Fee-For-Service program.

A second Geographic Managed Care program will be implemented in San Diego County with an expected start date of July 1, 1997.

During 1995, Medi-Cal had contracts with PHPs in 14 counties.

PREPAID HEALTH PLAN CAPITATION PAYMENTS - TABLE 16

The Prepaid Health Plan eligibles and payments shown in this report are obtained from the Worksheet for Capitation Payment (Initial Capitation Only, excluding supplemental adjustments, such as, any eligible on hold until certain issues have been resolved; AIDs Capitations; and new eligibles with enrollment beginning after the initial capitation).

During 1995, \$705.7 million in capitation payments were made to Prepaid Health Plans by the Medi-Cal program. This was \$105.9 million more than was paid in the prior year.

Total payments were \$28.5 million for Aged beneficiaries, or an average of \$205.23 per enrollee per month in 1995.

Total payments were \$3.5 million for Blind beneficiaries, or an average of \$306.91 per enrollee per month in 1995.

The Medi-Cal program paid the highest rate for Disabled enrollees, an average of \$255.40 per person per month, giving a total of \$90.6 million in 1995.

In 1995, the largest total capitation payment \$547.6 million, was for enrollees in the Families category. This amounted to an average of \$83.63 per enrollee per month.

In 1995, \$35.4 million was for enrollees in the Other category. This amounted to an average of \$179.50 per enrollee per month.

COUNTY ORGANIZED HEALTH SYSTEMS - TABLE 17

County Organized Health Systems (COHS) are prepaid by the Medi-Cal program on a capitated at-risk basis. COHSs are responsible for providing authorization and payment for most non-dental Medi-Cal services rendered to Medi-Cal eligibles residing in their respective counties.

The County Organized Health System eligibles and payments shown in this report are obtained from the Worksheet for Capitation Payment (Initial Capitation Only, excluding supplemental adjustments, such as, any eligible on hold until certain issues have been resolved; AIDs Capitations; and new eligibles with enrollment beginning after the initial capitation).

County Organized Health Systems currently exist in four counties (Orange, San Mateo, Santa Barbara, and Solano Counties). Santa Cruz COHS became operational January 1, 1996. Without a change in Federal Law, the Medi-Cal Program cannot have any additional, exclusive COHS contracts.

An annual average of 183,884 Medi-Cal eligibles were enrolled in County Organized Health Systems (COHS) each month of 1995. The enrollment increased 55.7 percent from the average of 118,078 persons eligible each month in 1994. This sharp increase is due to the expansion of County Organized Health Systems.

During 1995, \$303.6 million in capitation payments were made to County Organized Health Systems by the Medi-Cal program. This was \$85.5 million or 39.2 percent more than \$218.1 million paid in 1994. This large increase is due to the expansion of County Organized Health Systems.

The Orange County Organized Health System (CalOPTIMA) was effective October 1, 1995. A total of \$46.2 million in capitation payments were made for an average of 183,203 monthly eligibles for three months or an annual average of 45,801 eligibles.

The Health Plan of San Mateo (HPSM) was effective December 1, 1987. A total of \$84.3 million in capitation payments were made for an average of 51,698 monthly eligibles during 1995.

The Santa Barbara Health Initiative (SBHI) was effective September 1, 1983. A total of \$76.0 million in capitation payments were made for an average of 42,421 monthly eligibles during 1995.

The Solano Partnership HealthPlan (SPH) was effective May 1, 1994. A total of \$97.2 million in capitation payments were made for an average of 43,964 monthly eligibles during 1995.

ORANGE COUNTY ORGANIZED HEALTH SYSTEM (CalOPTIMA)

The Orange County Organized Health System (CalOPTIMA) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis.

All services authorized for Medi-Cal reimbursement will be provided through CalOPTIMA with the following exceptions: Services authorized by the California Children's Services program for the diagnosis and treatment of the CCS eligible condition of a specific member; Child Health and Disability Prevention (CHDP) services to eligibles under 21 years of age provided in accordance with the provisions of Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services and alcohol and drug program services; Laboratory analysis and reporting under the State serum alpha-feto protein testing program administered by the Genetic Disease Branch of the State Department of Health Services; Services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; Services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; or Home and community-based care waived services as described in Title 22, CCR, Section 51176; Local Education Authority (LEA) services described in Title 22, CCR, Section 51360 when provided pursuant to an Independent Education Plan (IEP) or Individual Family Services Plan (IFSP); LEA assessment services as described in Title 22, CCR, Section 51360 (b) (1) for eligible students.

Note: CalOPTIMA is being phased in by effective date according to the following dates and aid codes.

CalOPTIMA Effective Date

October 1, 1995	(AFDC and AFDC-related aid groupings) 01, 02, 08, 3A, 3C, 3P, 3R, 30, 32, 33, 34, 35, 38, 39, 54, 59, 81, 82, 86

HEALTH PLAN OF SAN MATEO (HPSM)

The Health Plan of San Mateo (HPSM) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis.

All services authorized for Medi-Cal reimbursement will be provided through the Health Plan of San Mateo with the following exceptions: Services in any federal or state governmental hospital ("State hospital" does not mean county hospital); Services rendered under California Children's Services (CCS) case management and not reimbursable under the State's Title XIX program; Child Health and Disabilities Prevention (CHDP) services which are those health care services for eligibles under 21 years of age, and provided in accordance with Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services; Long term care services rendered by nursing and intermediate care facilities; Services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; Services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; and Home or community-based care waived services.

OBRA/IRCA recipients in San Mateo County began receiving services through the Health Plan of San Mateo (HPSM), effective September 1, 1993.

Currently, all recipients with an identification number beginning with County Code 41 (San Mateo County) with the following Aid Codes are eligible to receive medical benefits under Medi-Cal or as Medicare/Medi-Cal crossovers are served through the Health Plan of San Mateo:

Aged: 10, 14, 16, 17, 18

Disabled: 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68, 6A, 6C

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

SANTA BARBARA HEALTH INITIATIVE (SBHI)

The Santa Barbara Health Initiative (SBHI) is a Medi-Cal County Organized Health System administered by Santa Barbara Regional Health Authority under contract to the State. This program provides health care services on a case management basis.

All services authorized for Medi-Cal reimbursement are provided through the Santa Barbara Health Initiative with the following exceptions: Services in any federal or state governmental hospital; Services rendered under California Children's Services (CCS) case management and not reimbursable under the State's Title XIX program; Child Health and Disability Prevention (CHDP) services to eligibles under 21 years of age provided in accordance with the provisions of Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services; Adult Day Health Care; Laboratory analysis and reporting under the State serum alpha-feto protein testing program administered by the Genetic Disease Branch of the State Department of Health Services; The facility or per diem charge component of services rendered to covered beneficiaries 21 to 64 years of age institutionalized in a Joint Commission on Accreditation of Healthcare Organizations (JCAHO) accredited facility designated by the United States Department of Health and Human Services (DHHS) as an Institution for the Mentally Disordered (IMD), except for covered beneficiaries who were receiving such services before turning 21 years of age and who may continue to require such services before turning 21 years of age and who may continue to require such services in which case coverage may be extended until the beneficiary's 22nd birthday; and The facility or per diem charge component of services rendered to covered beneficiaries 64 years of age and under, institutionalized in a non-JCAHO accredited facility designated by DHHS as an IMD.

Currently, all recipients with an identification number beginning with County Code 42 (Santa Barbara County) with the exception of Aid Codes 3A, 3C, 4C, 4K, 5F, 5K, 07, 7A, 7C, 7F, 7G, 7H, 8C, 8F, 9A, 44, 47, 48, 49, 51, 52, 55, 56, 57, 58, 69, 70, 72, 74, 75, 79, and 80 who are eligible to receive medical benefits under Medi-Cal or as Medicare/Medi-Cal crossovers are served through the Santa Barbara Health Initiative. (Medi-Cal Aid Codes are listed at the end of this report.)

Capitation payments do not include payments made to County Organized Health Systems for excess risk claims.

SOLANO PARTNERSHIP HEALTHPLAN (SPH)

The Solano Partnership HealthPlan (SPH) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis for most Medi-Cal recipients residing in Solano County.

Nearly all services authorized for Medi-Cal reimbursement will be provided through the Solano Partnership HealthPlan with the following exceptions: Services rendered under the California Children's Services case management and not reimbursable under the State's Title XIX program; Child Health and Disability Prevention (CHDP) services to eligibles under 21 years of age provided in accordance with the provisions of Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services and alcohol and drug program services; Laboratory analysis and reporting under the State serum alpha-feto protein testing program administered by the Genetic Disease Branch of the State Department of Health Services; Services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; Services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; or Home and community-based care waived services as described in Title 22, CCR, Section 51346; Local Education Authority (LEA) services described in Title 22, CCR, Section 51360 when provided pursuant to an Independent Education Plan (IEP) or Individual Family Services Plan (IFSP); LEA assessment services as described in Title 22, CCR, Section 51360 (b) (1) for eligible students.

Currently, all recipients with a Medi-Cal identification number beginning with County Code 48 (Solano County) with the following Aid Codes receive medical services through the Solano Partnership HealthPlan:

Aged: 10, 14, 16, 17, 18

Disabled: 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68, 6A, 6C

Family: 01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 3P, 3R, 40, 42, 54, 59

Child: 03, 04, 45, 82, 83

Adult: 81, 86, 87

Long Term Care: 13, 23, 53, 63

IRCA/OBRA: 55, 58

Capitation payments do not include payments made to County Organized Health Systems for excess risk claims.

NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

SECTION 6

MEDICARE PART A AND PART B BUY-IN ACTIVITY

Medicare, a medical insurance program, and Medi-Cal, a medical assistance program, together work to pay the medical bills of certain needy and low-income persons. The Medi-Cal program purchases Medicare Part A and Part B Supplementary Medical Insurance (SMI) for program eligibles who are entitled to the coverage.

Table 18 is included to show the number of Medi-Cal eligibles who were also eligible for Medicare Part A and Part B SMI coverage and for whom Medi-Cal paid the enrollment premium (bought in for).

Part A SMI benefits include hospital inpatient services.

Medi-Cal paid the monthly Medicare Part A enrollment premium for an average of 54,205 persons (44,320 aged and 9,886 disabled). The monthly premium averaged \$15.8 million.

Part B SMI benefits include physicians' medical and surgical services, outpatient hospital services, outpatient physical therapy and speech pathology services, durable medical equipment, services from independent laboratories, ambulance services, home health care, and a number of other health services and supplies. In addition to paying the monthly enrollment premium for eligible persons, Medi-Cal can pay the annual deductible and the portion of covered medical costs that Medicare does not pay.

In 1995, Medi-Cal paid the Medicare Part B enrollment premium for an average of 431,734 aged persons each month. The monthly premium averaged \$21.4 million.

Medi-Cal paid the monthly Medicare Part B enrollment premium for 296,386 disabled persons with premiums averaging \$14.3 million per month. The Disabled category includes persons in the Disabled or Blind aid categories.

SECTION 7

OTHER COVERAGE

SECTION 7

OTHER COVERAGE

Generally, providers are required to bill all other health insurance carriers prior to billing Medi-Cal. In exceptional cases, the Department's Recovery Branch handles the recoupment of any third-party liabilities.

The recipient's "Other Coverage" code appears on his or her Medi-Cal ID card. Table 19 shows, for the month of July 1995, the number of eligibles who had other coverage. Eligibility under Medicare is not considered "Other Coverage".

In total, only 200,685 persons or 3.7 percent of the July 1995 eligible population had Other Coverage (OC). Of these, 60.5 percent were Families in the Public Assistance (PA) and Medically Needy (MN) programs. This was lower than their representation in the total eligible population which was 62.9 percent.

Of the 69,731 Aged, Blind, and Disabled persons in the MN Long-Term Care aid category, 25.0 percent had some sort of OC. Most of this aid group also has Medicare coverage which is not included in Table 19.

"Other" Aged, Blind, and Disabled included PA, MN with a share of cost, and MN with no share of cost. The proportion of this group having OC was 3.3 percent. However, many in this aid group have Medicare coverage.

SECTION 8
COUNTY DATA

SECTION 8

COUNTY DATA

[Table 20](#) shows the number of Medi-Cal eligibles, including Fee-For-Service (FFS), County Organized Health Systems (COHS), Prepaid Health Plans (PHPs), and Primary Care Case Management Plans (PCCMs) by age group and sex, in October 1995.

Males comprise 41 percent of the Medi-Cal eligibles. Most males (67 percent) are under age 21, 24 percent are of ages 21 to 64, and 9 percent are 65 and older.

Fifty-nine percent of eligibles are females. Most females are under age 21 (48 percent), 39 percent are of ages 21 to 64, and 13 percent are 65 and older.

[Table 21](#) shows the average monthly number of persons eligible for Medi-Cal in each county by program and aid category, excluding COHS, PHPs, and PCCMs.

Los Angeles County accounted for 32 percent of non-PHP eligibles and 35 percent of eligibles including PHP enrollees.

[Table 22](#) reports average monthly number of users by program and aid category, excluding COHS, PHPs, and PCCMs. Division of Table 22 by Table 21 will give proportion of eligibles using Medi-Cal services, or the utilization rate.

Los Angeles County accounted for 34 percent of the users. Its utilization rate of 51.7 percent was 1.7 percentage points higher than the statewide average of 50.0 percent.

[Table 23](#) is a companion to the two preceding tables. Cost per user can be obtained by dividing Table 23 by Table 22, while division by Table 21 gives cost per eligible.

Los Angeles County accounted for 34.7 percent of the statewide total expenditures. The County's annual cost per user was \$4,517, which was 3.3 percent higher than the unadjusted statewide average and 3.5 percent higher than the statewide average if adjusted to exclude Presumptive Eligibility for Pregnant Women Program users. Los Angeles County's annual cost per eligible was \$2,336, which was 6.9 percent higher than the unadjusted statewide average and 6.8 percent higher than the adjusted statewide average.

[Table 24](#) shows average monthly number of users by type of provider. Utilization rates for the various services can be obtained by dividing the number of users by the county total eligibles of Table 21.

For example, the statewide utilization rate for physician services was 22 percent, or 22 out of every 100 eligibles used this service each month. The Los Angeles County utilization rate for physician services was 25 percent.

[Table 25](#) is a companion to Table 24. Cost per user by type of provider can be derived from the two tables.

For example, Los Angeles County's annual cost per user of physician services was \$1,059.85, which was 3.1 percent lower than the statewide average of \$1,028.45.

It can be noted from Table 25 that physician services accounted for 10.2 percent of total expenditures statewide and 11.6 percent of expenditures in Los Angeles County. Such comparisons can be made for each type of provider.

[Table 26](#) shows the number of physicians and hospitals receiving payments from the Medi-Cal program during the July-September 1995 quarter. The hospitals are the general acute care facilities and exclude state hospitals. Primary care physicians are reported separately by type of primary care specialty. Any other specialty (e.g., psychiatry, pathology, etc.) is included in the "All Other" column.

The number of physicians is understated. Due to the billing procedures used in the Medi-Cal program, the number of physicians practicing in groups is not known. Therefore, a group is counted as only one physician throughout this table.

Forty-three percent of the physicians billing the program were primary care physicians. Seventeen percent of the physicians were general practice/family practice physicians, 11 percent specialized in internal medicine, 7 percent specialized in obstetrics/gynecology, and 7 percent were pediatric specialists.

[Table 27](#) shows the county distribution of selected providers receiving Medi-Cal program payments. These are provider types whose total numbers are high enough to provide a functional county distribution for this table.

As would be expected, Los Angeles County, which is the most populous California county, has the largest proportion of providers. Alpine County had only 214 Medi-Cal eligibles and an estimated 1,170 county population in 1995. Other types of services may be obtained through providers in surrounding counties.

[Table 28](#) shows the population and Medi-Cal eligibles (including FFS, COHS, and PHPs) for each county.

Los Angeles County (the most populous California county) accounted for 29.2 percent of the population and 34.0 percent of the eligibles; followed by San Diego County accounting for 8.3 percent of the population and 6.6 percent of the eligibles; and Orange County accounting for 8.2 percent of the population and 5.4 percent of the eligibles.

[Table 29](#) shows the number of persons certified eligible for Medi-Cal (including FFS, COHS, PHPs, and PCCMs) by county and race/ethnicity in October 1995.

Of the 5,402,239 persons certified eligible for Medi-Cal in October 1995, 2,055,088 were Hispanic; 1,630,247 were White; 743,730 were Black; and 973,174 were of Other and Not Reported race/ethnicities.

In terms of percentages, 38.0 percent of the Medi-Cal eligibles were Hispanic, 30.2 percent White, 13.8 percent Black, 8.3 percent Asian/Pacific Islander, 0.4 percent American Indian/Alaskan Native, and 9.3 percent Not Reported race/ethnicities.

[Table 30](#) shows the number of providers by provider type and status. As of December 29, 1995, there were 76,783 providers with Active Status, 219,603 providers with Inactive Status, 251 providers with Pending Status, 3,619 providers with Deceased Status, 117 providers with Rejected Status, and 1,662 providers with Suspended Status.

Please Note: The paid claims data on Tables 22-25 (Users and Payments) are understated for Orange, Sacramento, San Mateo, Santa Barbara, and Solano Counties due to the fact that not all covered services are reimbursed on a per claim basis.

INA Information Not Available.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1995 because claims continue to be paid due to the lag from time of service to time of payment.

Averages are rounded independently and may not add to totals.

/1/ Availability of data is limited for Orange, Sacramento, San Mateo, Santa Barbara, and Solano Counties.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1995 because claims continue to be paid due to the lag from time of service to time of payment.

Averages are rounded independently and may not add to totals.

/1/ Availability of data is limited for Orange, Sacramento, San Mateo, Santa Barbara, and Solano Counties.

Note: FFS = Fee-For-Service; IRCA = Immigration Reform and Control Act; OBRA = Omnibus Budget Reconciliation Act.

The IRCA program expired December 31, 1994. IRCA is shown for 1995 because claims continue to be paid due to the lag from time of service to time of payment.

Payments are rounded independently and may not add to totals.

Figures in parentheses () indicate negative numbers.

SECTION 9
MEDI-CAL PROGRAM TRENDS

Blank Page

MEDI-CAL PROGRAM OVERVIEW

In July 1965, two major amendments to the Social Security Act greatly expanded the scope of medical coverage available to various segments of the population. Title XVIII established the Medicare program, and Title XIX established the state-option medical assistance program known as Medicaid that provided Federal matching funds to states implementing a single comprehensive medical care program.

State legislation implementing the Title XIX program was signed in November 1965. Medi-Cal, California's medical assistance Medicaid program, became effective in March 1966. Under the provisions of Title 22 of the California Code of Regulations, the State Department of Health Services administers the Medi-Cal program and has statutory responsibility to formulate policy that conforms with Federal and State requirements.

The objective of the Medi-Cal program is to provide essential medical care and services to preserve health, alleviate sickness, and mitigate handicapping conditions for individuals or families on public assistance, or whose income is not sufficient to meet their individual needs. The covered services are generally recognized as standard medical services required in the treatment or prevention of diseases, disability, infirmity or impairment. These services are comprehensive and provide care in the major disciplines of health care.

From the inception of the Medi-Cal Program, the State has contracted with a vendor to receive and process Medi-Cal claims.

In 1992, the State released a Request for Proposal (RFP) to all interested vendors. The RFP was developed to fulfill the State's requirements for fiscal responsibilities and good administrative practices, and to meet the Federal requirements under the Medicaid Management Information System (MMIS).

Electronic Data Systems responded to this RFP and was selected in September 1992 to process Medi-Cal claims for the next 5 years.

MEDI-CAL ELIGIBLES - TABLE 31

Data included in this table are Fee-For-Service (FFS), Redwood Health Foundation (RHF), County Organized Health Systems (COHS), and Prepaid Health Plans (PHPs).

The Medi-Cal eligible population averaged 5.42 million persons per month in 1995. This reflects an increase of 30,545 or 0.6 percent from 1994 and an increase of 2.5 million or 82.8 percent from 1986.

Capitated Health System eligibles included in Total Only for 1995.

Public Assistance FFS eligibles averaged 3.37 million persons per month in 1995.

Medically Needy eligibles averaged 543,081 persons per month in 1995.

Medically Indigent (MI) eligibles averaged 249,073 persons per month in 1995. Effective January 1, 1983, responsibility for the health care services for most MI Adults was transferred to the 58 counties.

The Immigration Reform and Control Act (IRCA) Alien program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994. IRCA is shown for 1995 because claims continue to be paid due to the lag from time of service to time of payment.

The Omnibus Budget Reconciliation Act (OBRA) Alien program averaged 282,743 persons per month in 1995.

The Refugee/Entrant program averaged 5,647 persons per month in 1995.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs averaged 174,015 persons per month in 1995.

The 60-Day Postpartum program averaged 1,760 persons per month in 1995.

The Dialysis and Total Parenteral Nutrition programs are small, with an average of 34 eligibles per month in 1995.

The Qualified Medicare Beneficiary program averaged 2,233 eligibles per month in 1995.

Data for the Presumptive Eligibility for Pregnant Women program are not available.

The Medi-Cal Tuberculosis program averaged 377 eligibles per month in 1995.

MEDI-CAL PAYMENTS - TABLE 32

Data included in this table are Fee-For-Service (FFS), Redwood Health Foundation (RHF), County Organized Health Systems (COHS), and Prepaid Health Plans (PHPs).

During 1995, Medi-Cal program payments ran \$11.1 billion. This reflects an increase of \$307.5 million or 2.8 percent from 1994 and an increase of \$6.5 billion or 140.4 percent from 1986.

Capitated Health System payments included in Total Only for 1995.

Public Assistance, the largest group in terms of total FFS expenditures, received \$5.6 billion in services during 1995.

The Medically Needy group received \$3.1 billion in services during 1995.

Medically Indigents received a total of \$371.9 million in services during 1995. Effective January 1, 1983, responsibility for the health care services for most Medically Indigent Adults was transferred to the 58 counties.

The Aliens and Refugee/Entrants received a total of \$659.2 million in services during 1995, a decrease of 6.1 percent from 1994. The Immigration Reform and Control Act (IRCA) Alien program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994. IRCA is shown for 1995 because claims continue to be paid due to the lag from time of service to time of payment.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty (renamed Income Disregard), and 200 Percent Poverty programs ran \$280.3 million during 1995.

The 60-Day Postpartum program ran \$1.9 million during 1995.

The Dialysis and Total Parenteral Nutrition programs ran \$1.3 million during 1995.

The Qualified Medicare Beneficiary program ran \$1.4 million in 1995.

The Presumptive Eligibility for Pregnant Women program ran \$25.8 million during 1995.

The Medi-Cal Tuberculosis program ran \$74 thousand during 1995.

The increase in expenditures in 1995 from previous years is attributable to an increase in eligibles, a higher rate of use by beneficiaries, reimbursement rate increases to providers, inflation, and changes in services.

DEFINITIONS OF TERMS

DEFINITIONS OF TERMS

The following defines commonly used terms used in discussions of Medi-Cal. The definitions are essentially correct, but some are much more complex than indicated below.

Beneficiary:	Inconsistently used to indicate a person who receives service (user or recipient) or a person eligible for service.
Capitate:	Refers to the payment of a set amount of money per month per person Capitation to an agency. The agency then provides medical care for all persons paid for. Essentially an insurance premium arrangement.
Categorical:	Designates persons eligible for assistance because they fall into certain welfare groups or categories (Aged, Blind, Disabled or AFDC).
CID:	The Centralized Identification system was a computer system which mailed out Medi-Cal ID cards each month to eligibles. Some reports on eligibility still use this term.
COHS:	County Organized Health Systems. Under this approach, the county acts as the primary contractor serving most Medi-Cal beneficiaries in the county. The COHS receive a capitated rate for each beneficiary in the county, and assume full financial risk.
Costs:	Medi-Cal Program payments or expenditures, usually to providers for services rendered. But may include all program expenditures.
Crossover:	Refers to a claim that has been processed and paid in part by Medi-(X-over) care and then processed by Medi-Cal for those with dual eligibility. Also referred to as Medi-Medi Claim.
Encounter:	Service/Supply rendered to a Medi-Cal beneficiary. Also referred to as a Shadow Claim if the Service/Supply is rendered under Managed Care.
Eligibles:	Persons who have been processed through the system and determined to meet the criteria for receiving medical assistance under the Medi-Cal Program.
Enrollees:	Eligibles who have joined Managed Care Plans.
Expenditures:	See Costs.

DEFINITIONS OF TERMS, Continued

Federal Financial Participation: (FFP)	The amount of money the Federal Government pays in the operation of the Medicaid Program. FFP varies from 50 percent to 90 percent depending on type of service and meeting of stipulated criteria.
Fee-For-Service: (FFS)	Used to distinguish regular Medi-Cal Program from the Managed Care Program: "Fee-For-Service eligibles" are persons not enrolled in Managed Care Plans.
GMC:	Geographic Managed Care. Under this approach, the Medi-Cal Program negotiates contracts directly with providers to accept beneficiaries within a specified area, again paying a monthly rate based on the estimated cost of providing services to similar beneficiaries under the fee-for-service system. The Department implemented this approach in Sacramento County in April 1994.
HMO:	Health Maintenance Organization. (See PHPs.)
Medi-Cal	California's name for Medicaid, includes the federal and state program of medical assistance for needy and low-income persons. (Federal designation of the Medical Assistance Program authorized under Title XIX of the Social Security Act.)
Medi-Cal Card:	An identification card given to Medi-Cal eligibles.
Medically Indigent:	A group of persons eligible for Medi-Cal Program benefits who are not categorically linked. Distinguished from Public Assistance and Medically Needy eligibles.
Medically Needy:	Categorically linked individuals eligible for medical assistance who meet the same eligibility criteria as Public Assistance persons. However, the MNs do not receive cash assistance because they have excess property or income according to welfare standards.
Medicare:	The Federal Social Security Program (Title XVIII of the Social Security Act) provides medical care to aged and certain disabled persons. This is essentially a medical insurance program, as opposed to Medicaid which is a public assistance program for the needy.
MEDS:	Medi-Cal Eligibility Data System. A major Electronic Data Processing (EDP) system providing online access to over 17 million records of current or former Welfare, Medi-Cal, or County Medical Services Program (CMSP) clients to support administration of those programs and delivery of benefits.

DEFINITIONS OF TERMS, Continued

Paid Claims:	A claim for medical services paid in behalf of a Medi-Cal eligible. Claims data are captured on computer tape and comprise the major data base of the Program. Usually "paid claims" refers to this data base rather than the actual document.
PCCM:	Primary Care Case Management. PCCM plans are paid a monthly capitation rate to manage selected outpatient services to Medi-Cal beneficiaries enrolled in the plan.
PHPs:	Prepaid Health Plans. Medi-Cal contracts with private entities to provide care to specific beneficiary categories. The PHPs are paid a monthly capitation payment, based on an estimate of the costs of serving beneficiaries in the fee-for-service system. Corresponds to HMO, as designated by the Federal Government.
Provider:	Any individual, group, business, or facility authorized to bill the Medi-Cal Program for services rendered to Medi-Cal eligibles. Includes the full scope of practitioners and facilities, such as physicians, hospitals, chiropractors, pharmacies, nursing facilities, intermediate care facilities, home health agencies, etc.
Public Assistance:	Refers to persons eligible for both cash assistance and medical assistance. These persons are aged, blind, disabled or members of families with dependent children; the assistance categories.
Recipient:	A user of a specified type of service.
SDX:	State Data eXchange: The computer tapes received from Social Security Administration which contain names and addresses of persons eligible for Medicare and Medi-Cal concurrently.
Services:	What providers provide Medi-Cal patients and are paid for by the Medi-Cal Program. Services have to be defined within the context in which they're reported. For example, the units of service for inpatient hospital services are patient days, the unit in prescription drugs is prescriptions, the unit in outpatient visits is visits, etc.
SSI/SSP:	Supplemental Security Income/State Supplementary Payment. If you get a SSI/SSP grant, Medi-Cal eligibility is automatically set up by your Social Security district office.
Vendor:	See Provider.
